

Usage & compatibility

```
if (window.Accelerometer) {  
  navigator.permissions.query({ name: 'accelerometer' }).then(result => {  
    if (result.state === 'denied') {  
      console.log('Permission to use accelerometer sensor is denied.');      return;  
    }  
    const acl = new Accelerometer();  
    // If you're not getting readings,  
    // then your device does not have the sensor  
    acl.start();  
  });  
} else {  
  console.log("Your browser doesn't support the Accelerometer sensor");  
}
```

Threats

Privacy & Security

*Location Tracking

*Keystroke Monitoring

*Device Fingerprinting

*User Identifying

*Eavesdropping
