

**Server events flow**

attached desired report

several starts listening

```
const express = require('express');  
const http = require('http')  
               .Server(express());  
http.listen(port, () => ... );
```

```
const io = require('socket.io')(http);  
io.on('connection',  
  (socket) =>  
    socket.on('message',  
      (data) => socket.broadcast.emit('message', data))  
    );
```

several receive messages

seniversenit senivend ne ssag e

```
const io = require('socket.io')(http);  
io.on('connection',  
  (socket) =>  
    socket.on('message',  
      (data) => socket.broadcast.emit('message', data))  
);
```
